Safari Nyasi - Green Season 9 Nights Essential Tour

December to April per person

Safari Nyasi is named after the swahili word for 'new grass' and the best time to enjoy it is between December and April when the Great Migration is in the southern Serengeti. Any Safari is a wonderful experience, but Nyasi offers the explorers the chance to venture off to more remote areas that are rich in wildlife with amazing vistas; relying on the experience of the guide to go off the beaten path.

Safari Nyasi begins with a short journey to Tarangire to acclimatise visitors to Africa and its culture before it climaxes with an unforgettable off- road exploration of Ndutu, the southern part of the Serengeti ecosystem that is outside the Serengeti National Park. At this time of year in Ndutu, the wildebeest will be found in great numbers as they give birth to their young and mums feast on the mineral rich grass to produce nourishing milk for their calves, getting them ready for the long migration north. The accommodation we have chosen comprises of camps and lodges that are privately owned and offer an authentic safari experience in comfort and style and that reflect the personality of the owners with a genuine taste of Africa.

DAY 1: Arrival Day and Pazuri Inn

Collection from Kilimanjaro Airport and Transfer to Tumbili Lodge

Welcome to Tanzania where we will be eagerly waiting for you just at the arrivals doors to take you the 1 1/2 hour transfer to Pazuri Inn for a welcome drink and briefing.

Pazuri Inn, Arusha

A wonderful experience is waiting for you at Pazuri inn Hotel. Spacious, beautifully appointed hotel rooms that rank among some of the largest in Arusha, Tanzania. Each room has its own unique stylish design in the oasis with complimentary Wi-Fi access, a huge European bathroom. Additionally, there are fine restaurants and bars with stunning views from the beautiful outdoor terrace and large swimming pool to relax around.

DAY 2: Tarangire National Park and Tarangire Safari Lodge

Tarangire National Park

Tarangire is one of my favourite parks and is the sixth largest park in the country with 2,850 square kilometres of wilderness.

Elephants, and other animals, are always confident of finding water in Tarangire and in the driest of seasons they will dig the river bed or visit the swamp, a sort of water tank for the region. In desperate times, the elephants will strip the bark from the Baobab trees that define Tarangire and squeeze out the water.

Tarangire Safari Lodge

Since 1985, this family-owned & managed Tarangire Safari Lodge has been well known for its location and panoramic views. It caters for wildlife enthusiasts and those seeking rest and relaxation among one of Tanzania's most popular national parks.

Quintessential safari tents, with thatched roofs and large, mesh-screened windows, provide the perfect opportunity to connect with the sights and sounds of nature. Each tent has a comfortable verandah, ideal for bird and game viewing or reading your favourite book after a dusty safari.

With a choice of twin, double tents, or triple bungalows; all are equipped with en-suite bathrooms with solar-heated showers, ample cupboard space for your gear, and a cultural touch of local textiles.

DAY 3: Mto Wa Mbu and Baghayo Garden Suites

Explore Mto Wa Mbu

As we leave Tarangire we will pass by the bustling town of Mto Wa Mbu which is a little micro hub for safari supplies and street food. We will take a break to amble around this fascinating town which is a hive of activity with safari-goers, guides and camp workers as they prepare for the adventure.

There is so much to explore in Mto Wa Mbu: youth art projects; the makonde wood carvers; you have the option of a banana plantation walk where you can enjoy a traditional family lunch and drink mbege, banana beer!

Your tour will finish in the bustling local market, where you can wander around stalls selling fruit and vegetables stalls, spices and meat. Your guide will stop and explain points of interest, and give you the opportunity to try and smell a variety of foods. A real treat for the senses!

T

Baghayo Gardens

Each room is a suite, constructed from earthy brick and wood throughout and consists of a separate living room as well as a bedroom with en-suite bathroom. The living area is comfortably furnished with upholstered chairs in front of the working fireplace for cozy relaxing.

DAY 4: Transit via Ngorongoro Crater and Kenzan Camp, Lake Ndutu

T

Ngorongoro Crater View

The Ngorongoro Crater is the gateway to the Serengeti and we will stop at the view point to see the entire crater some 600 metres below. It is the world's largest caldera and hosts the highest concentration of wildlife in Africa.

T

Kenzan Camp, Ndutu

Kenzan camps are traditional safari tents but with the added comfort of an en-suite bathroom and rudimentary electrical supply from solar energy, enough to charge devices.

These tented camps are serviced by friendly and attentive staff and although these would not be classed as luxury, they provide first class essentials with a good bed, crisp linen, good food and the all important camp fire along the banks of Lake Ndutu.

DAY 6: Ndotu Southern Serengeti and Kenzan Camp, Lake Ndotu

Ndotu, Southern Serengeti

The Ndotu plains is located in the Ngorongoro Conservation Area, on the outskirts of the Southern Serengeti plains. These plains are enriched with tremendous acacia trees, providing a panoramic view across Lake Ndotu and Masek at the other end. It is one of the best places in the Ngorongoro Conservation Area to spot predators and enjoy the stunning landscapes. Standing here means you're in the midst of a calving ground for migratory wild animals, specifically the wildebeest migration. It is typically composed of vast swaths of short grassland, soda-lake Masek, marshes, and woodland vegetation that support both residents and migratory animals.

Kenzan Camp, Ndotu

After an exhilarating game drive we will return to the lakeside camp for sundowners and freshen up before dinner. The evening will be spent by the camp fire and if the breeding season has started, you will be listening to the sounds of the flamingos.

DAY 5: Ndotu and Central Serengeti and Narudi Camp, Serengeti

Ndutu, Southern Serengeti

While Ndutu is an excellent game viewing area throughout the year, the best time to visit the Ndutu plains is from the end of December, when the Great Migration herds begin to arrive from the north, until April, when millions of wildebeest, gazelles, and zebras begin their journey northwards again. Due to the seasonal rains, massive herds of wildebeest and zebra can be seen all over these plains at this time of year.

Thousands of calves are born within Ndutu during the calving season, making Ndutu a home for new creatures on Earth. Giraffe, impala, elephant, dik dik, lion, cheetah, leopard, hyena, bat-eared fox, genet, jackal, wildcat, and many other animals end up living in Ndutu. The plains, marshes, and lakes to woodland attract an abundance of bird species.

Serengeti Central Game Drive

Meaning 'endless plains' in the Maasai language, the Serengeti is undoubtedly one of the world's most celebrated wilderness areas.

The Central Serengeti also has high-density game-viewing at all times and is well-known for its large concentration of cats, so much so that until recently this area was set aside for scientific research into predators, especially cheetah.

The big 5 are on everyone's list, and you're sure to see most if not all, but we might stumble upon an armadillo or the elusive leopard or even a serval or caracal cat. The beauty of the Serengeti is that you never know what you will find. there is always a surprise!

Narudi Tented Camp, Central Serengeti

Narudi Tented Camp welcomes you with big 360° view tents. These tents are perfectly fit to every customer's needs. Whether it is the living area with the most relaxing chairs you ever experienced, the veranda and the rooftop providing shade while you enjoy your cup of coffee or simply the bedroom with beds keeping you warm and comfy overnight, no wishes are left open after you've experienced the Narudi Experience.

DAY 7: Central Serengeti and Narudi Camp, Serengeti

Serengeti Central Game Drive

The big 5 are on everyone's list, and you're sure to see most if not all, but we might stumble upon an aardvark or the elusive leopard or even a serval or caracal cat. The beauty of the Serengeti is that you never know what you will find. there is always a surprise!

Narudi Tented Camp, Central Serengeti

We will return to camp at sunset to a warm welcome with e camp crew who will be waiting with hot towels and a refreshing drink. With time to freshen up before dinner, you will be invited to sit under the stars around the campfire.

DAY 8: Central Serengeti, Ngorongoro and Embalakai Camp

Serengeti Central Game Drive

We will have a morning game drive and then transit to our camp in Ngorongoro Crater in time for sunset.

Embalakai Authentic Camp, Ngorongoro

Embalakia Authentic Camp is an excellent place to stay in the Ngorongoro Conservation Area, this camp offers an authentic safari experience.

The camp provides comfortable tents and luxurious suites with modern amenities. Guests can enjoy the diverse wildlife of the area, including lions, elephants, and rhinos, through thrilling game drives led by experienced guides.

The camp has views over the local acacia trees and out to the far-off hills. It is close to the Elerai River and the Maasai bomas. The dining area, where you will eat breakfast and dinner, is located in the main tent. The deck is the ideal location for watching the sun set over the far-off hills while sipping a cool sundowner. In the evening after dinner you can unwind at the fire pit area, where you can share all your safari tales and experiences or perhaps hear from some of the team.

DAY 8: Ngorongoro Crater Game Drive and Tumbili Lodge

Ngorongoro Crater Tour

The Ngorongoro Crater is the world's largest intact and unfilled volcanic caldera and the Ngorongoro Conservation Area's main tourists' attraction. It is the largest and most scenic crater in the Ngorongoro Conservation Area, with a large concentration of wildlife. It is also one of Africa's Seven Natural Wonders due to its breathtaking natural features. The Ngorongoro Crater is known as a home to over 25,000 animals, including the big five; elephants, buffaloes, rhinos, lions and leopards.

Other animals found in this crater include hippos, hyenas, warthogs, zebras, elands, gazelles, wildebeests, just to name a few. This makes Ngorongoro Crater probably the best site in Tanzania to spot and watch the big five as well as other wild species more easily.

Pazuri Inn, Arusha

A wonderful experience is waiting for you at Pazuri inn Hotel. Spacious, beautifully appointed hotel rooms that rank among some of the largest in Arusha, Tanzania. Each room has its own unique stylish design in the oasis with complimentary Wi-Fi access, a huge European bathroom. Additionally, there are fine restaurants and bars with stunning views from the beautiful outdoor terrace and large swimming pool to relax around.

DAY 9: Check Out and Transfer to Kilimanjaro Airport

Transfer to Kilimanjaro Airport

Sadly it is time to say goodbye and we hope that although you came as strangers, you will leave as dear friends of Tanzania and its marvellous people and we welcome you back again soon.

We will schedule a VIP transfer from your residence to the airport for your onward journey or flight home (approx 3 hour).

Safari njema!
